

BACHELOR OF SCIENCE IN INFORMATION MANAGEMENT AND TECHNOLOGY

Well-rounded, educated individuals today need to know more than how to read and write. They must be able to utilize technology to find, assess, and assimilate information. The B.S. degree in Information Management and Technology provides management, problem solving, and communication skills necessary to work effectively with information users.

Students learn to:

- Manage today's overwhelming amount of information, from documents to pictures and music.
- Bridge the gap between management and technology.
- Connect people to the information they need, when they need it.
- Translate these skills to many career paths.

Part-time students seeking SU degrees go through University College, which focuses on the unique needs of non-traditional students. Degree programs can be completed through a combination of on-campus and flexible format courses, including online, accelerated, and condensed options.

For information, call University College for an appointment with an academic advisor, who will discuss courses and formats that suit your requirements and schedule.

WE EDUCATE PEOPLE FOR TODAY'S CAREERS...AND TOMORROW'S.

About the School of Information Studies (iSchool)

- The iSchool at Syracuse is ranked No. 1 in information systems among library and information studies schools, according to the 2008 *U.S. News & World Report* rankings.
- Graduates of the iSchool at Syracuse University have a 99 percent placement rate.
- Many graduates, and even some current students, launch their own businesses to address a need they discover in their interactions with people and technology.
- The newly-renovated Hinds Hall offers superior classrooms, labs and social spaces.

Admission and Degree Requirements

- An interview with an advisor is required (may be conducted by phone).
- Transfer students must have a GPA of at least 3.0 on a 4.0 scale to be considered for admission.
- Students must complete 120 credit hours to graduate.
- Transfer credits will be evaluated by an advisor and applied as appropriate.
